

Noor Fatima

MERN STACK DEVELOPER

ResumeKraft.com

SUMMARY

MERN Stack Developer skilled in building responsive and scalable web applications.

Developed full-stack projects like a Chatbot (using GroqAPI) and Meta Blog with the MERN stack. Completed a frontend internship with *Internship Pakistan*, contributing to multiple UI-focused projects. Also created the *Maritime Education System* and *Job Portal* using Node.js, Express, and MySQL. Passionate about clean design, efficient code, and building maintainable applications.

PROJECTS

1. HooBook - Hotel Booking Platform

React.js and Tailwind CSS

Developed a fully responsive hotel booking system using React.js and Tailwind CSS. Key features include hotel search, filtering/sorting, detailed hotel pages, room booking with form handling, and user dashboard for managing bookings. Integrated an admin panel for hotel management. Implemented React Router, Context API/React Query, and local JSON data for efficient state handling and navigation.

2. Shoe Brand E-Commerce Website (Shoose)

React.js, HTML, CSS, and JavaScript

Developed a fully functional e-commerce platform using React.js, HTML, CSS, and JavaScript. Key features include product listings with filters, detailed product pages, shopping cart with local storage, and a checkout form. Implemented smooth transitions and a component-based architecture for enhanced performance. Also designed the brand logo.

3. Microsoft Website Clone

EXPERIENCE

MERN Stack Developer

Fiverr *Present*

Offered web development services on Fiverr, specializing in responsive design, frontend (HTML, CSS, JavaScript, React.js), and backend integration (Node.js, Express, MongoDB). Helped clients optimize web applications for performance and usability.

Full Stack Developer

DevelopersHub Corporation *Mar 2025 - May 2025*

Recently completed a remote internship focused on full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Contributed to real-time web application features under mentor guidance, gaining practical experience in both backend and frontend development in a collaborative environment.

Frontend Developer

Internship Pakistan *Jan 2025 - Mar 2025*

Completed an internship where I actively contributed to building a responsive web application with optimized and reusable UI components. Utilized HTML, CSS, JavaScript, and modern frameworks to develop clean, user-friendly interfaces. Gained practical experience in frontend development, teamwork, and agile collaboration.

Web Developer

CodeClause & CodSoft *Aug 2023 - Dec 2023*

Completed web development internships at CodeClause & CodSoft, developing interactive websites using HTML, CSS, and JavaScript.

EDUCATION

BS Software Engineering

Virtual University of Pakistan *Nov 2020 - Sep 2024*

ICS Computer Science

Lahore College for Women University
Sep 2018 - Sep 2020

Matric

Govt Rafique-e-Niswan High School
Jul 2016 - Jul 2016

SKILLS

HTML, CSS (Tailwind), and JavaScript

Built a responsive, pixel-perfect clone of the official Microsoft homepage using HTML, CSS (Tailwind), and JavaScript. Implemented key sections like navigation, hero, product showcase, and footer. Added interactivity with hover effects and a dark mode toggle. Deployed the project on GitHub Pages.

4. Modern News Website

React, Bootstrap, NewsAPI

Developed a **responsive news platform** using React.js, Bootstrap, and NewsAPI, featuring real-time news updates, and a dark mode toggle for better readability.

5. Wanderlust Adventures

HTML, CSS, Flexbox, CSS Grid

Developed a **responsive landing page** for a fictional travel agency. Built using HTML & CSS, featuring a hero section, travel packages, testimonials, and a contact form with an interactive and mobile-friendly design.

6. Internship Pakistan

React , HTML, CSS, JavaScript

Developed **Internship Pakistan**, a responsive web application using React.js. Designed and implemented interactive UI components, optimized for performance and user experience, ensuring seamless navigation and responsive design.

7. Maritime Education System and Job Portal

Node js, Express js, MySQL

Developed backend for **Maritime Education System & Job Portal** with Node.js, Express, MySQL. Designed RESTful APIs, managed data, collaborated with front-end, and conducted testing.

8. Chatbot Web Application

React js , Node js , MongoDB , Express js

Developed a **chatbot web app** using the MERN stack and GroqAPI, allowing users to input crime or case details. Implemented backend logic for case analysis and GroqAPI integration to provide relevant insights.

9. Meta Blog

React js, Node js, Express js, MongoDB

Developed **Meta Blog**, a MERN stack-based dynamic blogging platform. Designed and implemented client

- HTML
- CSS
- JavaScript
- Bootstrap
- JQuery
- MySQL
- PHP
- Laravel
- WordPress
- React Js
- Node Js
- Express Js
- MongoDB
- GitHub
- Vercel
- Postman
- Java

and server-side components for seamless user experience, including database management and RESTful API development.

10. QuizHawk

Laravel

Developed **QuizHawk**, a Laravel-based comprehensive quiz app, with front-end and backend. Responsibilities included database design, server-side logic, API integration, and responsive UI/UX design.

11. To-do-App

Laravel

Developed a Laravel-based **To-Do App** with CRUD operations for seamless task management. Designed user-friendly interface, implemented RESTful APIs for seamless data handling between front-end and back-end.

12. Chrome Extension

JavaScript, HTML, CSS

Developed and deployed **Chrome extensions** in JavaScript, HTML, CSS. Created Calculator & Email Hunter extensions, enhancing browser functionality.
